THE BOUT

CSE-GSP ANNUAL CLIMATE QUIZ FOR SCHOOLS

February 21, 2023, 9-10:30 AM

Stein Auditorium, India Habitat Centre, Lodhi Road, New Delhi

Climate change is here to stay, but how much do we really know about it? It's time to put our knowledge to the test!

CSE's Green Schools Programme invites GSP schools to register for the pan-India inter-school quiz and win accolades. Our promise? No hefty list of facts needed to win. Come out smarter and 'greener' with questions that make you go 'Hmm... I never thought about it!'

WHAT TO EXPECT

School teams from all parts of the country will compete against each other in this inter-school quiz covering the impacts, science, negotiations and politics of climate change. Climate experts from CSE will help students unravel some hard-hitting truths about climate change.

The top three winning teams will get exclusive CSE-GSP goodies and bragging rights for the rest of the year!

WHO CAN REGISTER

The quiz competition will be held as an integral part of CSE's Green Schools Carnival 2023. It is open only for students of Green Schools Programme network schools.

HOW TO REGISTER

- Form a team of two students from Grades 6 to 9. Individual registrations will not be accepted.
- The school's GSP Coordinator (teacher) should fill out the registration form.
- The last day to register for the quiz is Saturday, February 11, 2023.

Since the seats are limited, final school teams will be selected on a first-come-first-served basis and contacted personally. Selected teams MUST be accompanied by the GSP Coordinator.

QUIZ IN-CHARGE
